ENGINEER METER APPROVAL FORM

A \$125.00 non-refundable Engineer Meter Review Fee is required for new service or to re-establish service. This review consists of computer modeling to determine the impact on the system, and any recommended system upgrade with cost estimate, if applicable. It is conducted by our servicing Engineer of Record.

Name: _____ **Phone #:** _____

_____ **E-Mail** _____

Mailing Address/State/Zip Code

METER LOCATION: _____

I understand this review may take 14 or more days; once results have been received from the Engineer McCoy WSC will notify me. Services **APPROVED** will have a cost estimate good for 45 days; a completed application (all parties having ownership must sign), Easement (if applicable - all parties having ownership must sign) and proof of ownership of the meter location. You will also be notified if services are **NOT APPROVED** due to the recommendations indicated by our servicing Engineer of Record.
